How to Use Markup ERVS™
Vote iPhone App for Casting a Ballot

Voters will receive an email notification when a vote is opened. Please note that you will only receive notifications for a vote in which you are eligible to participate.

**1** Unlock your Official iPhone and click on the Markup ERVS™ Vote app.

2

Log in.

3

Select an open vote, then click **Continue.**
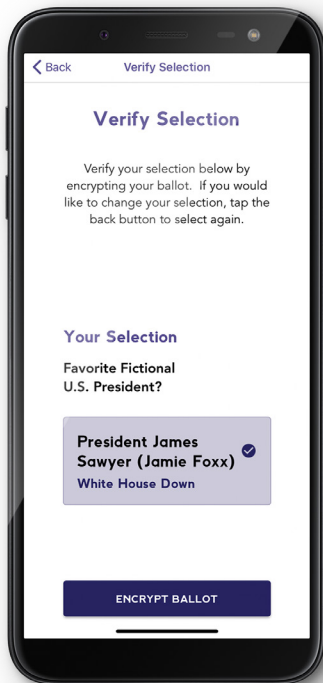

4

Select one of the options and click **Review your Ballot.**

5

Your ballot is almost ready. Once you are satisfied with your selection, click **Encrypt Ballot.**

*If you want to change your selection, click the **Back** button to return to the previous page.*

6

Your ballot will be encrypted and a unique confirmation code will be generated. Now click **Cast Ballot** to submit your vote.
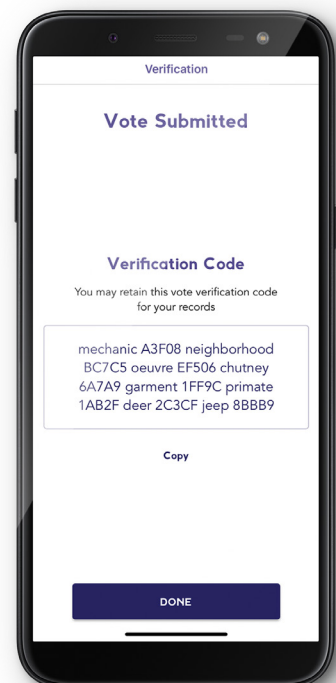

*If you want to change your selection, click **Spoil** to restart the process.*

7

Vote Successfully Submitted.

Once you have cast your ballot, the app will refresh to confirm your ballot has been submitted. The app will then display a unique confirmation code, which you can copy and save for your records.

‹ Back   Verify Selection

Verify Selection

Verify your selection below by encrypting your ballot. If you would like to change your selection, tap the back button to select again.
